SUPER UV/VEHICLE PROTECT

Protect your spraybooth lights and windows or your vehicle off-road

ENVIROMENTALLY SAFE

Protectapeel is a water based coating that can be disposed of safely in landfills. (No harmful chemicals)

ELIMINATES THE NEED TO REPAIR DAMAGED SURFACES

Gives superior protection to eliminate damage.

HOW IT WORKS

Easy and fast to apply, it forms skin-tight protection.

BETTER WORKING CONDITIONS

The clear coating allows light to pass through booth lights and windows in spraybooth applications.

APPLICATION AND REMOVAL

Coating can be left on for 12 months for internal applications and recommended for 3 months on vehicle applications.

OTHER INDUSTRIES USING PROTECTAPEEL
